Vanuatu Tourism Associations

Department of Tourism currently recognizes the following tourism associations based on the following:

1. Registration with VFSC
2. Association constitution
3. Support towards the Vanuatu Tourism Standards Program

After relevant amendments to the Vanuatu Tourism Councils Act to provide clear description of the collection and management of the Tourism Marketing support Fund, it will then become another requirement from any tourism associations prior to being listed on the "Accredited/recognized list of tourism associations" prior to full enforcement of the Standards Program: 2017.

The Department of Tourism will consult with each of the listed Associations prior to producing the list of recognized/certified Tourism Associations by August, 2016. The aim is to ensure operators are given the opportunity to affiliate with a functioning association. An Association that will fairly represent member's interests and continuous support for the Vanuatu Tourism Standards Program.
